

Copper – A Sustainable Element

**Copper Improves
Energy Efficiency**

**Copper Drives
Renewable Energy**

**Copper Reduces
Energy Loss**

**Copper Delivers
Quality**

International Copper Association India is a member of Copper Alliance and the Indian arm of International Copper Association, the leading organization for the promotion and defense of copper worldwide.

ICA India is driven by the same objective as that of its parent organization, which is to "Defend and grow markets for copper, based on its superior technical performance and its contribution to a higher quality of life worldwide".

ICA India has various programs that focus on Electrical Safety and Energy Efficiency. It drives its programs through seminars and interactive workshops across India in collaboration with like-minded organizations, institutions and trade bodies. ICA India also publishes technical handbooks, training manuals and brochures aimed at spreading awareness on the many benefits of copper and its use in technology.
