

SAMSUNG

Presenting The World's first Circular AC

Add even cooling to your décor
with Samsung 360 Cassette AC

The innovative circular design of the Samsung 360 Cassette air conditioner adds a sophisticated look to any designs.

Circular Design: Its full-circle design allows it to be placed aesthetically in any setting

Perfectly Even Cooling: Innovative 360 degree airflow ensures optimal air conditioning, which also eliminates dead zones

Blade-less Airflow: Increases air volume by 25%* with booster fan

*Based on internal testing on Samsung conventional 4way model with 360 cassette model at the same 48kBTu model and horizontal blade position.

*The IF DESIGN AWARD is a symbol of design excellence around the world that recognizes works in the categories of Product, Packaging, Communication, Interior Architecture and Professional Concept.
