Examination**

Indian Green Building Council™ Accredited Professional Examination

Introduction

The Indian Green Building Council™ “Accredited professional Examination” (IGBC™ AP) offered by the IGBC is a credential for professionals to participate in green building projects.

The examination is not based on any specific rating system of IGBC. It is designed to test the knowledge of a candidate on green building design and construction.

Objective

- Recognize holistic understanding of green building concepts and design
- To meet the growing demand for qualified Green professional

At present, India has over 1,500+ IGBC APs. India would require around 5,000 APs to hand hold the green building projects in the country by 2020

Benefits

- Successful candidates will be awarded the IGBC Accredited Professional certificate and will be listed on IGBC website
- Qualified individuals can be involved in projects registered under the IGBC rating programs like Existing Buildings, Factory Buildings, Homes, Landscape, New buildings, Schools, SEZ, Townships etc.
- Projects would achieve one credit point under “Innovation and Design” category if one of the principal participants is IGBC AP certified
- Qualified professional can use IGBC AP logo on their business card
- Successful candidates can have career growth and job opportunities

Examination Administration

The Indian Green Building Council Accredited Professional Examination is offered online through our test partner twice in a month at all the major cities. Candidate can choose test center as per his or her willingness
