

MECHWELL
DRIVEN BY INNOVATION

“ Driven By Innovation ”

With State of Art R&D and Manufacturing facility & having the depth & breath of expertise in carrying out successful application engineering , Mechwell is fully equipped to take on any challenge in the design & manufacturing arena.

Performance Improvement in following areas, using CFD

- Pre – Heater system
- Raw Mill Circuit
- Cement Mill
- ESP's, Bag House & Ducting
- Separator

Products

- Dampers
- Metallic Exp. Joints
- Non-Metallic Exp. Joints
- Guillotine Gates
- ESP Retrofitting

CFD Solutions For

- High Pressure Drop
- Heat Transfer
- Material Accumulation
- Collection Efficiency
- Combustion & Erosion

Our Business Verticals

- R&D
- Manufacturing
- Testing Services
- Commissioning
- Air Pollution Control
