GREEN IS THE COLOUR OF PROGRESS

Kempegowda International Airport Bengaluru has been certified for ACA at Level 3 optimization by ACI for the last 3 years. Being highly conscious about energy consumption and carbon footprint, the airport recorded 20-30% reduction in water wastage, solid waste, and energy usage during the last 3-7 years. Our progressive initiatives have ensured that we achieved sustainability without compromising on efficiency. Today, we are the only airport to be awarded Green Co Platinum Rating by CII - Green Building Council.
