

# EXTENSIVE PRODUCT PORTFOLIO

## Products for all domains.

Suzlon gives its customers the option to choose from an exhaustive product portfolio that ranges from 600 kW to 2.1 MW. Suzlon wind turbines are built to meet varied terrains and can work efficiently in high or low wind sites, and in tropical or sub-arctic areas. That is why Suzlon is known as a complete wind energy generation solution provider with satisfied customers in Indian and international markets.
