

Shakti Hormann
Doors for Home and Industry

Range of Residential Doors

Elegance and functionality in steel

Shakti Hormann

The one stop solution for your entire door needs!

India's leading manufacturer of doors and now part of the Hörmann group, we offer complete door solutions for the Indian residential, commercial and industrial market. With the latest in German technology, our products have found suitable applications in Home and Industry.

Established in 1935, Hörmann is Europe's number one and the world's leading supplier of doors. We have produced and delivered over 15 million doors worldwide and recognized as a brand with a reputation for high quality. All our products & services come with paradigm and underlying motto that 'A good reputation must be earned'.

Why steel doors are the perfect choice for your home?

- Steel doors do not absorb moisture, do not bow, twist and warp, they are termite free and maintenance friendly. A great value for money in the long run. When properly installed and maintained they often last for decades.
- The ideal choice for entrance door is to insulate you from high noise pollution levels and also provide privacy within your home.
- Eco-friendly, energy efficient, sturdier and a better alternate to wood. These steel doors do not fade with age, simple to maintain and rarely require replacement.
- Steel's natural strength also outperforms other materials in security, fire rating, vandal resistance, hygiene and performance. To ensure security and protection, these doors offer unique multiple locking system.
- Factory finished doors with a modern appearance, vibrant colours, embossed or woodgrain finish, offers a wide range to satisfy the aesthetic requirement of your home.

Steel Doors are the best choice if security and durability are your top priorities.

Don't just go by our words...

Refer to the studies confirming the benefits of steel doors over other doors.

Recent studies* have shown that Hollow metal doors (Steel doors) earned the highest ranking on performance compared to other door materials i.e. Wood, Aluminium and Fiberglass. These doors evidenced the best performance on: Fire Rating, Thermal and Acoustical Performance, Hurricane/Cyclone Resistance, Resistance to Physical Abuse, Anti-Microbial Properties, Corrosion and Water Resistance, Maintenance and Repair and most importantly Longevity.

① Entrance Door

② Internal Door

③ Safety Door

④ Garage Door

⑤ Fire Door

⑥ Rail & Stile Door

⑦ Toilet Door

- Security solutions with multipoint locking and air tight seals
- Complete doorset including hardware

Entrance

A range of main and side entrance doors are available to suit the style of your home.

Safety

This twin combination door with a internal opening door and an outward opening security grill door meets safety and convenience for your entrance applications.

Fire Door

Certified Fire Doors meeting Indian, British and American standards ensure personal safety by stopping the spread of fire. Suitable for apartments and high rise buildings.

Internal

These doors can be used for all the internal applications like bedroom, balconies, kitchen, storeroom and toilets. Durable and ideal for enhancing the interiors of your home.

Rail & Stile

These doors add unique look to your home while providing high degree of transparency. Ideal for balconies and utility.

Garage

Automatic garage doors for independent homes, villas and gated communities. Available with the latest in accessories to ensure safety and security of your cars.

- Termite proof and maintenance free
- Various finishes to suit the style of your home
- Aesthetically superior and robust steel construction

A Harmonious Design

- The snug fitting door leaf and the frame combine into an elegant flush-fitting door design.

- Robust and long-lasting steel frame with a grooved profile and a PVC seal for acoustic and energy efficiency.

- Optional rebated aluminum threshold with a PVC seal is available.

- High quality trims and lever handles to suit various applications.

- Stainless steel ball bearing butt hinges for smooth operation.

Multipoint Locking ensures increased security and safety of your home. System operates smoothly keeping your doors properly locked and keeping them air tight when used in conjunction with a bottom threshold.

Our wide range of doors for the residential segment are designed to suit various applications like Entrance, Internal, Kitchen, Balcony, Safety, Toilets and Garages.
