

Active Furniture Solutions

Collection Series - 2015

THE COMPANY

Active cozy Furniture is division of Active Green Window Solutions. Active Green Windows is a multiproduct manufacturing company with Technical collaboration with REHAU Germany for uPVC windows, doors & RAUCORD weaving furniture. Recently tied up with SCHUCO Germany for fabricating Premium Aluminum window systems and façade. All these products are made in our state of the art manufacturing facilities located near Patancheru, Hyderabad. We follow stringent quality norms set by REHAU, RAUCORD, SCHUCO and ISO 9001:2008 systems.

REHAU is a market leader across the world for their innovation in providing high quality products and stylish furniture designs that are durable and highly resistant to all weather conditions.

We constantly upgrade the skills of our employees to meet the Challenges of today's competitive business world. Complimenting an impressive range of skills and experiences, our fully trained Craftsmen and staff offer an unravelling insight into the design, manufacturing and maintenance of Active Furniture.

ABOUT PRODUCT

We provide a wide range of indoor / outdoor furniture made of natural and synthetic rattan, which caters to all types of budgets, designs and colors. A variety of weaving styles and patterns are also incorporated to suit different tastes. Our living sets, balcony sets, dining and cocktail table sets, swings, sun beds and loungers are built to ensure the highest levels of practicality, durability and comfort.

Most of the Furniture frames are made of high quality commercial grade aluminum, which ensures the structural integrity and stability of each piece. After the structure is made, it goes for powder coating and then baking to make sure that paint is properly dried for aesthetics and long lasting. Then the weaving will take place. Its easy to move the furniture all around because of its light weight.

Lasts for a long time because of the anti-rust element that aluminum has and finally, as a structure, it lasts longer than any other material, as it can withstand the highest and lowest temperatures. The Synthetic fibers that we use at our factory are from REHAU which are skillfully woven to create our collections of luxury indoor/ outdoor furniture.

One of the unique aspect of Active Furniture is that on receipt of a picture of any pattern, size or color from the client we can manufacture and supply the same item within the agree time lines.

We have established our factory in 2012 with elumatec German Machinery to fabricate uPVC windows and doors. Subsequently added Fom Italian Machinery and powder coated paint booth and baking chambers to fabricate aluminum window systems, façade, Indoor and outdoor Raucord wicker furniture.

The Synthetic fibers we use at our factory is REHAUGerman which are skillfully woven to create our collections of luxury outdoor furniture. We constantly upgrade the skills of our employees to meet the challenges of today's competitive business world. Complimenting an impressive range of skills and experiences, our fully trained craftsmen, staff and consultants offer an unravelling insight into the design, manufacturing and maintenance of Active Group.
